Lana Capital is a Real Estate Development Company That Flips Houses and Gives Customers the Opportunity to be a Part of the Deals

MIAMI, FL / ACCESSWIRE / March 23, 2016 / Marcelo Castro Alves, the founder of [Focus Investment Advisors LLC](#), recently announced the support in the development of a new company, Lana Capital, a real estate venture. [Lana Capital](#) focuses on real estate investments in the United States and is available to Focus Investment Advisors LLC's clients as a way to diversify their portfolios. Focus Investment Advisors LLC also invest directly in the projects of Lana Capital where we not only refer clients to invest with Lana but we invest with them as well.

According to Marcelo Castro Alves, the founder of Lana Capital, Mr. Luis Noronha, developed the project's plans. Mr. Noronha, who previously resided in Brazil until September 2014, created Lana Capital to help clients diverge from traditional investments in the financial market. Lana Capital creates real estate investment opportunities by purchasing discounted properties from banks in popular neighborhoods, bringing the properties up to their maximum value, and offering its investors joint-venture opportunities.

Since its creation, Lana Capital has already finished working on its tenth house. Readers are invited to inquire about Lana Capital's real estate ventures via the form available on the website <http://lana.capital/>.

Marcelo Castro Alves and Focus Investment Advisors also announced its decision to hire a company specialized in setting up fund structures in Brazil. Alves intends for the fund structure to serve as a vehicle for Brazilians and international clients to invest in United States real estate projects. The fund structure would eventually simplify the investment for Brazilians and international clients who were interested in United States real estate opportunities.

"We only act in our clients' best interests," said Marcelo Castro Alves. "When you speak, we will listen carefully, and when we speak, you can always expect objectivity and truth."
